The Sabbath Truth in the Bible and Its Central Role in the Atonement Mar 29 2021

Studies in Pure Mathematics Jan 07 2022 This volume, written by his friends, collaborators and students, is offered to the memory of Paul Tunin. Most of the papers they contributed discuss subjects related to his own fields of research. The wide range of topics reflects the versatility of his mathematical activity.

His work has inspired many mathematicians in analytic number theory, theory of functions of a complex variable, interpolation and approximation theory, numerical algebra, differential equations, statistical group theory and theory of graphs. Beyond the influence of his deep and important results he had the exceptional ability to communicate to others his enthusiasm for mathematics. One of the strengths of Turan was to ask unusual questions that became starting points of many further results, sometimes opening up new fields of research. We hope that this volume will illustrate this aspect of his work adequately. Born in Budapest, on August 28, 1910, Paul Turan obtained his Ph. D. under L. Fejer in 1935. His love for mathematies enabled him to work even under inhuman circumstances during the darkest years of the Second World War. One of his major achievements, his power sum method originated in this period. After the war he was visiting professor in Denmark and in Princeton. In 1949 he became professor at the Eotvos Lorand University of Budapest, a member of the Hungarian Academy of Sciences and a leading figure of the Hungarian mathematical community.

The Seventh-Day Sabbath and Its Redemptive Function in God's Everlasting Covenant of Grace Apr 29 2021 This special and remarkablebook, The Seventh-day Sabbath and its Redemptive Function in Gods Everlasting Covenant of Grace by A.M. Simataa addresses topical issues in the Bible quite pertinent to the 21st Century Christianity. The author takes a defensive approach of the gospel and brings to the surface some of the least understood teachings of the Bible. Although written from a Seventh-day Adventists perspective, people of differing religious background and persuasions will fi nd this book very instructive. If you have been looking for a book that pains takingly discusses the Gospel seriously and biblically this is the book you have been searching for. Some of the topics featured in the book include: The Truth about the Bible Sabbath The Judgment of the Living Heavenly New Jerusalem; The Marriage Supper of the Lamband the Rapture The Remnant Church in the Parables Mr A.M. Simataa teaches at a High School in Windhoek, Namibia. He likes sharing the Gospel with others and spends some of his spare time witnessing to others. The central role of the Seventh-day Sabbath in the Redemption of our race is the least understood topic in the Bible today. Most believers have even dismissed its relevance to todays Christianity. However, the truth is that the Sabbath is at the heart of Christs work to save human beings in accordance with Gods plan. The Sabbath is so central to the work of atonement that Christ is referred to in the Bible as the Lord of the Sabbath. The issue of the Sabbath will become pertinent as we near the End, and every human being will be required to take a stand in the confl ict involving the Sabbath question. This book will plant your feet on a solid foundation.
