A compulsively readable novel in the vein of *The Bonfire of the Vanities*—by way of *The Nest*—about what Washington, DC's high society members do away from the Capitol building and behind the closed doors of their suburban mansions. And when the family of one of their own is held hostage and brutally murdered, everything about their legacy is called into question. They're called *The Cave Dwellers*. man well-to-do in the world; he was once a merchant respected for his strict integrity and punctuality in business affairs; but by a false step, a making haste to be rich, he was ruined. The great land speculation of '37 and thereabout was the chief, and in fact the only cause of his misfortune. On one day he could boast of his thousands, and no paper held better credit than that signed or endorsed by him. The next, the bubble broke, his fortune was scattered, his riches took to themselves wings and flew away, his creditors, like vultures, flocked around [...]"
