Half a Lira's Worth Jun 14 2022 Vivronia was born a girl in the male-dominated Eastern/Arab society. Her mother rejected her at birth because she had black moles on her face and neck. Throughout her childhood and youth, her mother convinced her that love and marriage could never be possible for her. So what opportunities were there for a tall, fat, ugly female with the world in turmoil around her as she tried to survive the Lebanese Civil War? She had to create her own opportunities. Aged twenty-three years, she met a man, gave him half a Liras worth, married him, and obtained a visa to migrate to Australia as his wife. In line with the Eastern culture, sex was his privilege and her duty only. It was a matter of being out of the frying pan and into the fire. In Sydney, five years later, with her two infant sons, she deserted her violent husband to become a single mother on welfare. The welfare system paid for the removal of her facial moles turning the ugly duckling into a beautiful swan. Aged forty-five years, after a singles without partners party, she was seduced by a tall handsome lover who taught her Western culture lovemaking, where women are allowed to enjoy sex. She became belatedly addicted to it. During the ensuing five years, she climbed up the social ladder and married a prominent recent widower to secure her social and financial standing. But her past life of guilt and shame caught up with her. The reader is left with the question, was she a conniving female gold digger using her sexuality to obtain more of what she was not entitled to, or was she the victim of her lifelong fractured environment, forced to survive on her own in a male-dominated society?

The Doctor Rowena Halley Series Books 1-4 Feb 27 2021 They say knowledge is power. For newly minted PhD Rowena Halley, all her book learning isn't enough to keep her safe. She'll have to rely on her Moscow-honed street smarts instead. Get the first four books in the Doctor Rowena Halley series and three bonus companion novellas in one boxed set! "Brilliantly-written and highly entertaining, a must read..." The Prairies Book Review "A charming blend of academic inspection and social commentary that weaves an engrossing personal perspective into a blend of social observation and evolving romance." D. Donovan, Senior Reviewer, Midwest Book Review Meet Rowena Halley, a former human rights activist turned academic. Rowena thought teaching on US college campuses would be a lot safer than interviewing torture victims in Russia. Boy, was she wrong. Rowena quickly gets caught up in campus intrigue that threatens to turn deadly. Meanwhile, the life and lover she thought she'd left behind in Moscow might not be so firmly back in the past as she'd believed. Written by a Russian professor with extensive insider knowledge of the topic, these books take a deep dive into the dark underbelly of American higher education. Serious and satirical in turn, they combine mystery, dark humor, and a touch of romance in a searingly funny examination of contemporary American and Russian society. *Content warning*: These books contain adult language—and have the one-star reviews to prove it. Worse than that, they have been accused of peddling philosophy and political science. You've been warned. Foreign Exchange (bonus novella) Rowena travels to Moscow to spend the holidays with her fiancé, opposition journalist Dima Kuznetsov. But a story he's investigating takes a potentially deadly turn—for their love, and maybe for their lives. Campus Confidential Newly single and fresh from her dissertation defense, Rowena starts her first faculty job. She was expecting poor treatment and lousy pay. Murder seems a bit much. Permanent Position The good news: Rowena has a new job and maybe even a new boyfriend. The bad news: the job pays starvation wages, and the boyfriend is three states away. Oh, and Dima seems to want to be back in her life—if his death wish doesn't get him first. But it's when Rowena gets sucked into a nasty domestic dispute between a student and his mail-order Belarusian bride that things get really dangerous. Summer Session Rowena is looking forward to a fun interlude with American boyfriend Alex while teaching an intensive summer program. But their weekend getaway is interrupted when a student goes missing. Oh yeah, and Dima seems ever more determined to stay in the picture. Summer Break (bonus novella) Dima has spent the last year and a half in the comparative

safety of the war zone in the Donbass. But now his past is catching up with him. A life-or-death confrontation might force him to rethink everything. Trigger Warning Rowena is starting a new job that almost pays a living wage (!!!). But when a prominent female gamer and feminist activist is targeted by a student men's rights organization, Rowena gets drawn into a potentially deadly stew of toxic misogyny and heartbreak. Winter Break (bonus novella) When the commander of a separatist battalion in the Donbass makes Dima an offer he can't refuse, he finds himself one step closer to finding out who's behind the hit that's been put out on him. But if he gets too close, he might not survive long enough for it to matter.

The Morning Echo Mar 19 2020 Beauty manifests itself in nature, and that beauty inspires love, kindness, and goodwill. In *The Morning Echo*, author Javed Naseer explores a plethora of subjects revolving around nature and science and the role they play in life. Collected from his life experiences from his early childhood after leaving India for New Orleans to adulthood, the essays are based on experiments and speculation as well as mathematics, derivation, and extrapolation. These essays share insights on a wide array of topics, discussing how India emerged as a free democratic republic after dethroning British from positions of authority in the Indian subcontinent; presenting a brief introduction to a ruling democratic government and its methods of implementing justice; and describing the Apollo 11 mission to the moon and the first man, Neil A. Armstrong, on the moon. Naseer also delves into the issues involving the ever-growing world population and the pollution crisis that plagues our planet; brings to light one of the cheapest resources of energy, hydropower; lists the top ten universities of the world; and reviews Einsteins Special Relativity and Newtons Laws of Motion Covering widely diverse subjects, *The Morning Echo* communicates valuable insight as to the nature of human life, the world around us, and how we must act in order to survive the calamities and the brutalities of time.

Matt Keegan: 1996 Aug 04 2021 Matt Keegan interviews artists and commissions writing to reassess the 1990s as the moment when the Democratic Party abandoned its New Deal values and swung to the right In the wake of the Trump election, artist Matt Keegan (born 1976) began investigating the Democratic Party's shifts over recent decades. In the late '80s, members of the Democratic Leadership Council successfully moved the party's platform to the right by including a pro-business, pro-military, interventionist agenda, and downplaying social infrastructure as a calculated break from its New Deal-era foundation. This shift led to Bill Clinton's consecutive terms. 1996 captures this pivotal time in American politics and society through the experience of artists who completed their undergraduate studies in that year and voted for Clinton, and others who were born in 1996 and voted for the first time in 2016. Essays focus on cultural and ideological shifts from that time, such as the 1994 Crime Bill, 1996 Immigration Act, the Telecommunications Act, the start of Fox News and beyond.

Finance & Development, June 2018 Nov 19 2022 This paper focuses on smart policies that can alleviate the short-term pain of technological disruption and pave the way for long-term gain. As computing power improves dramatically and more and more people around the world participate in the digital economy, care should be taken about how to devise policies that will allow us to fully exploit the digital revolution's benefits while minimizing job dislocation. Digital technology will spread further, and efforts to ignore it or legislate against it will likely fail. Even with short-term dislocations, reorganizing the economy around revolutionary technologies generates huge long-term benefits. The digital revolution should be accepted and improved rather than ignored and repressed. Given the global reach of digital technology, and the risk of a race to the bottom, there is a need for policy cooperation like that of global financial markets and sea and air traffic. The history of earlier general-purpose technologies demonstrates that even with short-term dislocations, reorganizing the economy around revolutionary technologies generates huge long-term benefits.
