Understanding Statistics in the Behavioral Sciences Apr 14 2022 Based on over 30 years of successful teaching experience in this course, Robert Pagano's introductory text takes an intuitive, concepts-based approach to descriptive and inferential statistics. He uses the sign test to introduce inferential statistics, empirically derived sampling distributions, many visual aids, and lots of interesting examples to promote student understanding. One of the hallmarks of this text is the positive feedback from students -- even students who are not mathematically inclined praise the text for its clarity, detailed presentation, and use of humor to help make concepts accessible and memorable. Thorough explanations precede the introduction of every formula, and the exercises that immediately follow include a step-by-step model that lets students compare their work against fully solved

examples. This combination makes the text perfect for students taking their first statistics course in psychology or other social and behavioral sciences. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Critical Thinking: The Art of Argument Jul 05 2021 With a complete, approachable presentation, CRITICAL THINKING: THE ART OF ARGUMENT, 2nd Edition, is an accessible yet rigorous introduction to critical thinking. The text emphasizes immediate application of critical thinking in everyday life and helps students apply the skills they are studying. The relevance of these skills is shown throughout the text by highlighting the advantages of basing one's decisions on a thoughtful understanding of arguments and presenting the overarching commonalities across arguments. With its conversational writing style and carefully selected examples, the book employs a consistent and unified treatment of logical form and an innovative semiformal method of standardizing arguments that illustrates the concept of logical form while maintaining a visible connection to ordinary speech. Without sacrificing accuracy or detail, the authors clearly present the material, with appropriate study tools and exercises that emphasize application rather than memorization. Logic: The Essentials Mar 01 2021 LOGIC: THE ESSENTIALS concentrates on the fundamentals of introductory logic. Practical in orientation and content, Essentials is loaded with class-tested, proven practice exercises. The book is tailored to address the needs of many of today's instructors who are challenged by time constraints but yet want to instill in their students a solid grasp of basic logical principles and the requisite skill to apply them in everyday life. This new text is based on the classic and bestselling textbook, A Concise Introduction to Logic, and nearly all of the exercises in the correlative chapters, so central to the effectiveness of that text, have been retained to ensure more than enough practice for students to master the central concepts. The text focuses largely on deductive logic, but it contains sufficient treatment of induction to provide a solid footing for informal fallacies. The result is a contemporary approach--more focused, more practical, less theoretical--built on a tradition of precise, elegant, and clear presentation of the subject matter of logic, both formal and informal. Management Jan 31 2021 How are leaders successfully managing competitive companies in the 21st Century? Gulati/Mayo/Nohria's MANAGEMENT, 1E, by award-winning instructors and prominent

Harvard business experts, addresses the many integrated facets in answering this key question to help you effectively prepare for successful leadership now and in the future. As a manager, you will be confronted with challenges and opportunities that are more dynamic and complex than ever before. As a leader in any business role, you need to understand how to harness technological advances, manage and lead a dispersed and diverse workforce, anticipate and react to constant competitive and geopolitical change and uncertainty, compete on a global scale, and operate in a socially responsible and accountable manner. Gulati/Mayo/Nohria's MANAGEMENT, 1E demonstrates the mutual interconnectivity between three key facets of management: strategic positioning, organizational design, and individual leadership. The book presents management from a tangible, integrated, and current perspective, teaching you to visualize how strategy informs leadership and how leaders influence strategic positioning and, ultimately, manage performance. Statistics: A Tool for Social Research Aug 26 2020 Packed with everyday examples of statistics in the real world, STATISTICS: A TOOL FOR SOCIAL RESEARCH, 10e, provides a reader-friendly introduction to the fundamental concepts of statistics and their practical application to a wide variety of contemporary social issues. Using myriad examples of statistics from daily life, the text demonstrates that statistics are not just abstract mathematical constructs but have practical value in government, education, business, media, politics, sports, and much more. STATISTICS helps you understand the importance of statistical fundamentals in research without requiring advanced mathematical knowledge. It supports effective learning for both math-averse beginners as well as more advanced students in diverse social science disciplines. Focusing on the application of computational research in favor of the computations themselves, the text fully integrates with the most current version of IBM's SPSS software and labels end-of-chapter SPSS problems by the discipline from which they are drawn. The author breaks down even the most complex material to help you master key concepts and develop the skills you need to succeed as a professional in a social science field-or simply to become a "statistically literate" consumer of social research.
