Known for its unique “Special Topic” chapters and emphasis on everyday health concerns, the Fifth Edition of *Biology of Humans: Concepts, Applications, and Issues* continues to personalize the study of human biology with a conversational writing style, stunning art, abundant applications, and tools to help you develop critical-thinking skills. The authors give you a practical and friendly introduction for understanding how their bodies work and for preparing them to navigate today's world of rapidly expanding—and shifting—health information. Each chapter now opens with new “Did You Know?” questions that pique your interest with intriguing and little-known facts about the topic that follows. The Fifth Edition also features a new “Special Topic” chapter (1a) titled “Becoming a Patient: A Major Decision,” which discusses how to select a doctor and/or a hospital, how to research health conditions, and more. For some of us it's a small desk in the corner of a kitchen or living room, for others it's a self-contained home office, but we all need a space we can call our own - where we can catch up on emails, tackle household admin or enjoy some crafting. In *A Space of My Own*, Caroline Clifton-Mogg shows you how to make the most of your personal work space. Part 1 explores The Elements that make up a successful work area, from choosing the right Furniture for comfort and the right Lighting for the task, to attractive Storage to keep things conveniently at hand and Decoration to create an environment that truly brings out the creativity in you. Part 2 is about The Spaces as a whole, showing examples of Home Offices, Shared Work Spaces, Sewing and Craft Rooms and Space for Children and Teens. Featuring case studies of successful examples of all four areas, it provides ideas and inspiration which can be easily translated into your own home. Because personal work space should be both practical and inspiring, and, quite simply, the more it is designed around your needs and tastes, the more inspired you will be. \* Creating space within the home to work or craft is a growing trend. \* Includes inspirational case studies and hundreds of tips and ideas from highly-respected interiors journalist Caroline Clifton-Mogg. \* Includes more than 250 beautiful, inspirational photographs of studies, home offices and craft rooms. Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life. Adobe Photoshop Lightroom Classic CC is one of the most powerful tools a digital photographer has in their toolset, offering powerful editing features in streamlined interface that lets photographers import, sort, and organize images. In this completely updated bestseller, author Martin Evening describes Lightroom Classic CC features in detail, covering library organization, develop image processing, output modules, and an introduction to the features in the new Adobe Photoshop Lightroom CC across desktop, web, and mobile. As an established commercial and landscape photographer, Martin knows first-hand what photographers need for an efficient work flow. He has been working with Lightroom from the beginning, and as a result, knows the software inside and out. In this book, he'll teach you how to: Work efficiently with images shot in raw or non-raw formats Import

photographs with ease and sort them according to your workflow Create and manage a personal image and video library Integrate Lightroom with Adobe Photoshop Prepare images for print, slideshows, or to create a book Make the most of new features, such as the ability to migrate and sync photos via the cloud Photographers will find Lightroom Classic CC—and The Adobe Photoshop Lightroom Classic CC Book—indispensable tools in their digital darkrooms. Join Lisa and Amanda as they document the five years that were spent in the bleak, destitute city of Highland Park, Michigan; a city surrounded by Detroit. Experience their unique experience working hard to bring a strong education to economically disadvantaged children. Different paths brought Lisa and Amanda to B.E.S.T. Academy, but it was the students who taught them why they work in urban education and brought life lessons that will be carried forever. In the history of mankind, three revolutions which impact the human life are tool-making revolution, agricultural revolution and industrial revolution. They have transformed not only the economy and civilization but the overall development of the human society. Probably, intelligence revolution is the next revolution, which the society will perceive in the next 10 years. ICCD-2014 covers all dimensions of intelligent sciences, i.e. Intelligent Computing, Intelligent Communication and Intelligent Devices. This volume covers contributions from Intelligent Computing, areas such as Intelligent and Distributed Computing, Intelligent Grid & Cloud Computing, Internet of Things, Soft Computing and Engineering Applications, Data Mining and Knowledge discovery, Semantic and Web Technology, and Bio-Informatics. This volume also covers paper from Intelligent Device areas such as Embedded Systems, RFID, VLSI Design & Electronic Devices, Analog and Mixed-Signal IC Design and Testing, Solar Cells and Photonics, Nano Devices and Intelligent Robotics. The sixth edition of this text retains a unified approach, the integration of historical background and the voice of Henry Gletman that has made it a classic. It also embraces change, accurately charting the evolution of psychology as new discoveries have been made and theories tested. Eismann is world known for her talent as a Photoshop expert and photographer, but above all she's considered one of the best teachers her field has ever seen. In this book she uses the tutorial approach that made her two previous Photoshop books bestsellers to take photographers beyond quick tips and gimmicky effects. Erotic memoir Examines chivalry in the context of the Middle Ages In this, his fourth big cookbook, the award-winning chef John Besh takes another deep dive into the charm and authenticity of creole cooking inspired by his hometown, New Orleans. Besh Big Easy: 101 Home-Cooked New Orleans Recipes, is a fresh and delightful new look at his signature food. Besh Big Easy will feature all new recipes and easy dishes, published in a refreshing new flexibound format and accessible to cooks everywhere. Much has changed since Besh wrote his bestselling My New Orleans in 2009. His restaurant empire has grown from two to twelve acclaimed eateries, from the highly praised Restaurant August to the just opened farm-to-table taqueria, Johnny Sanchez. John's television career has blossomed as well. He's become known to millions as host of two national public television cooking shows based on his books and of Hungry Investors on Spike TV. Besh Big Easy is dedicated to accessibility in home cooking and Orleans cuisine. "There's no reason a good jambalaya needs two dozen ingredients," John says. In this book, jambalaya has less than ten, but sacrifices nothing in the way of flavor and even offers exciting yet simple substitutions. With 101 original, personal recipes such as Mr. Sam's Stuffed Crabs, Duck Camp Shrimp & Grits, and Silver Queen Corn Pudding, Besh Big Easy is chock-full of the vivid personality and Louisiana flavor that has made John Besh such a popular American culinary icon. Happy eating! "Siblings Bob and Tom get a dog with spots. This A-level story uses decodable text to raise confidence in early readers. The book uses a combination of sight words and short-vowel words in repetition to build recognition. Original illustrations help guide readers through the text."-- Explore the Cajun traditions of the Walker family, creators of the Slap Ya Mama Cajun Seasoning company. Through family stories, Cajun lore, and some of the most prized recipes in

Louisiana, this collection is sure to leave you feeling a little Cajun yourself. Nuclear deterrence and nonproliferation no longer enjoy the broad support they once did during the Cold War. Academics and security experts now question the ability of either to cope or check nuclear rogue states or terrorists. On the one hand, America's closest allies-e.g., Japan and South Korea-believe American nuclear security guarantees are critical to their survival. If the United States is unwilling to provide Tokyo or Seoul with the assurance they believe they need, would it then not make sense for them to acquire nuclear forces of their own? On the other hand, with more nuclear-armed states and an increased willingness to use them, how likely is it that nuclear deterrence will work? This volume investigates these questions. In it, six experts offer a variety of perspectives to catalyze debate. The result is a rich debate that goes well beyond current scholarship to challenge the very basis of prevailing nonproliferation and security policies.

Anxious to get into a Tokyo groove, both women are on the prowl for a funky and cheap place to live. But inexpensive apartments in Japan's capital city are hard to find. Two of America's most popular authorities on healthy eating and cooking join forces in this inspiring, easy-to-use cookbook. This is not a diet book. It is a lively guide to healthy cooking, day-by-day, packed with essential information and, above all, filled with enticing food. Andrew Weil, M.D.—author of the best-selling *Eating Well for Optimum Health*—brings to this perfect collaboration a comprehensive philosophy of nutrition grounded in science. Rosie Daley—acclaimed for her best-seller, *In the Kitchen with Rosie*—brings to it her innovative and highly flavorful spa cuisine. The recipes are eclectic, drawing from the healthy and delicious cooking of the Middle East, the Mediterranean, and Asia, among other cuisines. For starters, you might try Grilled Satay or a Miso Pâté; for soup, often a meal in itself, a hearty Mixed-Bean Minestrone Stew or a Roasted Winter Squash and Apple Soup with Cilantro Walnut Pesto; a special entrée could be the Savory Roasted Cornish Hens with Roasted Garlic or Baked Spicy Tofu with Bean Thread Noodles, Corn, and Mango; for a simple supper, Turkey Burgers or Portobello Burgers; and for the occasional indulgence, a dessert of Almond Fruit Tart or Peach and Blueberry Cobbler. Andy and Rosie do not always agree. When Rosie calls for chicken, Andy offers a tofu alternative; she likes the flavor of coconut milk, whereas he prefers ground nut milk; when she makes a pastry with butter, he suggests using Spectrum Spread. There are no hard-and-fast rules. Lifelong health begins in the kitchen, so this is a lifestyle book as well as a cookbook. In it you will learn from Dr. Weil: • how to make use of nutritional information in everyday cooking • what is organic . . . and how to buy organic foods • the importance of reading labels and what to look for • sensible advice about eggs, milk, cheese, salt, spicy foods, wine, coffee • the facts about sugar and artificial sweeteners . . . and from Rosie: • how to get kids involved—from skinning almonds to layering lasagna • ways to have fun in the kitchen—creating scallion firecrackers and radish rosettes • low-fat and nondairy alternatives for those with special concerns • smart menu planning—letting the seasons be your guide . . . and lots more. This revolutionary book will change forever the way you cook for yourself and your family. With 58 photographs in full color. In *How to Super Tune and Modify Holley Carburetors*, best selling author Vizard explains the science, the function, and most importantly, the tuning expertise required to get your Holley carburetor to perform its best for your performance application. A riveting true story of the failure of the courts and police to protect a woman and her daughters. This last book in the six-volume series from NEXTmanga combines cutting-edge illustration with fast-paced storytelling to deliver biblical truth to an ever-changing, postmodern culture. More than 10 million books in over 40 different languages have been distributed worldwide in the series. America Now makes it easy for you to bring brief, thought-provoking essays on contemporary topics into your classroom, with reliable pedagogy and an expert reader's knowledge of what works for students. As series editor for *The Best American Essays*, Robert Atwan constantly scours a wide range of publications, bringing to America Now an unrivaled focus on today's best writing. Instructors tell us that their students want to respond to the essays in the book, and they praise the high-quality reading and writing instruction, critical thinking and reading questions, and model student essays that help them do so. Over half of the readings in America Now are new to this edition and published since 2018, making it truly a book for today's composition course. Some girls have all the luck. So far, Carrie Fitzgerald's sixteen years have been pretty sweet. Straight A's, an adorable boyfriend, a starting position on the varsity basketball team... But Carrie's luck is about to, well, change.

Suddenly, her boyfriend dumps her (to "hang out with his friends"!), she and her best friend have a massive blowout, and she gets a D on a biology test. Carrie knows what's wrong -- her mom accidentally donated her lucky T-shirt to Help India. That one adorable, perfect T-shirt was the source of all her good fortune. So Carrie does what any girl would do: She's going to India. Cross your fingers and hope that Carrie finds adventure, love, and maybe just a little good luck along the way.... Culling common household items to create an uncommon arsenal of miniature gadgets and side-arms, this guidebook provides do-it-yourself spy enthusiasts with 35 different surveillance tools and weapons. Tired of hunting for a specific table in a rulebook? Wish you had heavy-duty reference cards for TechManual use like that found in the 25th Anniversary Introductory Box Set? Then the Tech Kit is for you! The Tech Kit contains seven heavy-duty cards of compile tables from TechManual. Also included is a brand new BattleMech blueprint poster! We've come a long way from the Peashooter Era: with the advent of modern household products and office supplies - foldback clips, clothespins, rubber bands, ballpoint pens, toothpicks, paper clips and plastic utensils - the everyday junk drawer can hold all the materials needed to create pocket-sized weaponry. Whether you're slowing dying of boredom in a stuffy office, plotting revenge on your older siblings or simply looking for a wonderful way to kill some time, this book is for you. Toy designer John Austin provides detailed, step-by-step instructions for each project, including materials and ammo lists, clear pictures, and construction tips, for mayhem-loving MacGyvers. The 35 devices include catapults, slingshots, darts, crossbows, and combustion shooters. Build a tiny trebuchet from paper clips and a D-cell battery. Wrap a penny in a string of paper caps to create a surprisingly impressive "bomb." Several of the projects even include variations where combatants mount laser pointer sights to their shooters to increase their accuracy. The instructions are simple so that anyone can make these wacky innovations in minutes whilst also learning about mechanics and physics in a fun, hands-on way.
