THE NEW ALEX VERUS NOVEL I don't publicly advertise that I'm a mage, but I don't exactly hide it either, and one of the odd things I've learnt over the years is just how much you can get away with if you're blatant enough. Hide something behind smoke and mirrors and make people work to find it, and they'll tear the place down looking for what's there. Alex Verus is a diviner who can see probable futures—a talent that's gotten him out of many a tough scrape. But this time, he may be in over his head. Alex was once apprenticed to a Dark mage, and in his service he did a lot of things he isn't proud of. As rumors swirl that his old master is coming back, Alex comes face to face with his misdeeds in the form of a young adept whose only goal is to get revenge. Alex has changed his life for the better, but he's afraid of what his friends—including his apprentice, Luna—will think of his past. But if they're going to put themselves at risk, they need to know exactly what kind of man they're fighting for... When physicist Michael Shelborne mysteriously vanishes, his son Shel discovers that he had constructed a time travel device. Fearing his father may be stranded in time—or worse—Shel enlists the aid of linguist Dave MacElroy to accompany him on the rescue mission. Their journey through history takes them from the enlightenment of Renaissance Italy through the American Wild West to the civil-right upheavals of the 20th century. Along the way, they encounter a diverse cast of historical greats, sometimes in unexpected situations. Yet the elder Shelborne remains elusive. And then Shel violates his agreement with Dave not to visit the future. There he makes a devastating discovery that sends him fleeing back through the ages, and changes his life forever. An antiquities dealer travels to Earth to search for an artifact of the early space age and to search for an interstellar transport that vanished 11 years prior. Sunset Tuttle spent a lifetime looking for alien species. Twenty-five years after Tuttle's

death, Alex Benedict discovers a stone tablet inscribed with cryptic symbols, now in the possession of Tuttle's one-time lover Rachel Bannister. Benedict is determined to decipher its secret—one Bannister doesn't want revealed. Could it be that Tuttle's obsessive quest was successful? Mage Alex Verus is hanging on by a thread in the ninth urban fantasy novel from the national bestselling author of *Burned*. When Mage Alex Verus ends up with a position on the Light Council, no one is happy, least of all him. But Alex is starting to realize that if he wants to protect his friends, he'll need to become a power player himself. His first order of business is to track down dangerous magical items unleashed into the world by Dark Mages. But when the Council decides they need his help in negotiating with the perpetrators, Alex will have to use all his cunning and magic to strike a deal—and stop the rising tension between the Council, the Dark Mages, and the adept community from turning into a bloodbath. 60 years ago, the space yacht *Polaris* was found deserted, the fate of its pilot and passengers a mystery. Now, to mark the anniversary of the disappearance, there is to be an auction of what was left behind on the ship. Using his insider knowledge, Alex Benedict, one of the preeminent antiquities dealers in the galaxy, secures some of the artifacts. But then an explosion destroys most of the collection, convincing Alex that drastic measures are being taken to hide what happened aboard the *Polaris*—which is why that's exactly what he has to find out, especially if it means risking his life. From Nebula Award-winning author Jack McDevitt comes the eighth installment of the Alex Benedict series featuring Gabe triumphantly reuniting with Alex and Chase to retrieve a possible alien artifact—which may lead them to solve the greatest archaeological mystery of their careers. After being lost in space for eleven years, Gabe has returned, and is trying to find a new life for himself after being presumed dead—just as Alex and Chase are relearning how to live and work with him. But when a seemingly alien artifact goes missing from Gabe's old collection, a mystery is uncovered concerning its origins and it grants everyone an opportunity to dive into solving it as a team, once again. When a lead on the artifact is tied to a dead pilot's sole unrecorded trip, another clue leads to one of the greatest mysteries of the age: the infamous disappearance of a team of scientists aboard a space station orbiting a black hole—the Amelia Earhart of their time. With any luck, Alex, Chase, and Gabe may be on the trail of the greatest archaeological discovery of their careers. Nebula Award winner Jack McDevitt, who Stephen King has called “the logical heir to Isaac Asimov and Arthur C. Clarke,” has created another terrific science fiction mystery in his beloved Alex Benedict series. *Building the Benedict Option* is a combination spiritual memoir and practical handbook for Christians who want to build communities of prayer, socialization, and evangelization in the places where they live and work. Beginning when the author was a new convert, she desired more communal prayer and fellowship than weekly Mass could provide. She surveyed her friends—busy, young, urban professionals like herself—and created unique enriching or supportive experiences that matched their desires and schedules. The result was a less lonely and more boisterous spiritual and social life. No Catholic Martha Stewart, Libresco is frank about how she plans events that allow her to feed thirty people on a

Friday night without feeling exhausted. She is honest about the obstacles to prayer and the challenge to make it inviting and unobtrusive. Above all, she communicates the joy she has experienced since discovering ways to open her home (even when it was only a small studio apartment). The reader will close this book with four or five ideas for events to try over the next few weeks, along with the tools to make them fruitful. From film nights to picnics in the park to resume-writing evenings, there are plenty of ideas to choose from and loads of encouragement to make more room in one's life for others.

A new Alex Benedict novel from “a master of describing otherworldly grandeur.” (Denver Post) Forty-one years ago the renowned physicist Chris Robin vanished. Before his disappearance, his fringe science theories about the existence of endless alternate universes had earned him both admirers and enemies. Alex Benedict and Chase Kolpath discover that Robin had several interstellar yachts flown far outside the planetary system where they too vanished. And following Robin's trail into the unknown puts Benedict and Kolpath in danger... Jack McDevitt brings back the daring Alex Benedict from *A Talent for War*, thrusting him into a far-future tale of mystery and suspense that will lead the prominent antiquities dealer to the truth about an abandoned space yacht called the *Polaris*. Two science fiction masters—Jack McDevitt and Mike Resnick—team up to deliver a classic thriller in which one man uncovers the hidden history of the United States space program... “Houston, we have a problem...” Formerly a cynical, ambitious PR man, Jerry Culpepper finally found a client he could believe in when he was hired as NASA's public affairs director. Proud of the Agency's history and sure of its destiny, he was thrilled to be a part of its future. But public disinterest and budget cuts changed that future. Now, a half century after the first Moon landing, Jerry feels like the only one with stars in his eyes. Then a fifty-year-old secret about the Apollo XI mission is revealed, and he finds himself embroiled in the biggest controversy of the twenty-first century, one that will test his ability—and his willingness—to spin the truth about a conspiracy of reality-altering proportions... The inspiration for the HBO

documentary from Academy Award–winning producer Alex Gibney. The #1 New York Times bestseller based on years of reporting and interviews with more than 250 people from every corner of Tiger Woods’s life—this “comprehensive, propulsive...and unsparing” (The New Yorker) biography is “an ambitious 360-degree portrait of golf’s most scrutinized figure...brimming with revealing details” (Golf Digest). In 2009, Tiger Woods was the most famous athlete on the planet, a transcendent star of almost unfathomable fame and fortune living what appeared to be the perfect life. But it turned out he had been living a double life for years—one that exploded in the aftermath of a Thanksgiving night crash that exposed his serial infidelity and sent his personal and professional lives over a cliff. In this “searing biography of golf’s most blazing talent” (GOLF magazine), Jeff Benedict and Armen Keteyian dig deep behind the headlines to produce a richly reported answer to the question that has mystified millions of sports fans for nearly a decade: who is Tiger Woods, really? Drawing on more than four hundred interviews with people from every corner of Woods’s life—many of whom have never spoken about him on the record before—Benedict and Keteyian construct a captivating psychological profile of a mixed race child programmed by an attention-grabbing father and the original Tiger Mom to be the “chosen one,” to change not just the game of golf, but the world as well. But at what cost? Benedict and Keteyian provide the startling answers in this definitive biography that is destined to linger in the minds of readers for years to come. “Irresistible...Immensely readable...Benedict and Keteyian bring us along for the ride in a whirlwind of a biography that reads honest and true” (The Wall Street Journal). Ultimately, Tiger Woods is “a big American story...exhilarating, depressing, tawdry, and moving in almost equal measure” (The New York Times).

The acclaimed classic novel and fan favorite—the far-future story of one man's quest to discover the truth behind a galactic war hero. From the renowned author of *Possession*, *The Children's Book* is the absorbing story of the close of what has been called the Edwardian summer: the deceptively languid, blissful period that ended with the cataclysmic destruction of World War I. In this compelling novel, A.S. Byatt summons up a whole era, revealing that beneath its golden surface lay tensions that would explode into war, revolution and unbelievable change — for the generation that came of age before 1914 and, most of all, for their children. The novel centres around Olive Wellwood, a fairy tale writer, and her circle, which includes the brilliant, erratic craftsman Benedict Fludd and his apprentice Phillip Warren, a runaway from the poverty of the Potteries; Prosper Cain, the soldier who directs what will become the Victoria and Albert Museum; Olive's brother-in-law Basil Wellwood, an

officer of the Bank of England; and many others from every layer of society. A.S. Byatt traces their lives in intimate detail and moves between generations, following the children who must choose whether to follow the roles expected of them or stand up to their parents' "porcelain socialism." Olive's daughter Dorothy wishes to become a doctor, while her other daughter, Hedda, wants to fight for votes for women. Her son Tom, sent to an upper-class school, wants nothing more than to spend time in the woods, tracking birds and foxes. Her nephew Charles becomes embroiled with German-influenced revolutionaries. Their portraits connect the political issues at the heart of nascent feminism and socialism with grave personal dilemmas, interlacing until *The Children's Book* becomes a perfect depiction of an entire world. Olive is a fairy tale writer in the era of Peter Pan and Kenneth Grahame's *The Wind In the Willows*, not long after *Alice's Adventures in Wonderland*. At a time when children in England suffered deprivation by the millions, the concept of childhood was being refined and elaborated in ways that still influence us today. For each of her children, Olive writes a special, private book, bound in a different colour and placed on a shelf; when these same children are ferried off into the unremitting destruction of the Great War, the reader is left to wonder who the real children in this novel are. *The Children's Book* is an astonishing novel. It is an historical feat that brings to life an era that helped shape our own as well as a gripping, personal novel about parents and children, life's most painful struggles and its richest pleasures. No other writer could have imagined it or created it.

'No one writing today is better than McDevitt at combining galaxy-spanning adventure with the genuine novel of ideas' *Washington Post Book World* Two hundred years ago, humans made a stunning discovery in the far reaches of the solar system: a huge statue of an alien creature, with an inscription that defied all efforts at translation. Now, as faster-than-light drive opens the stars to exploration, humans are finding other relics of the race they call the
