The wait is over for a practitioner-oriented guidebook instructing on efficacious herbal preparation. Drawing heavily upon vintage western pharmacopoeias, Advanced Herbal Pharmacy uncovers and brings forth what was considered common knowledge to turn of the century (19th/20th) pharmacists/chemists; that is, how to prepare effective herbal medicines with efficiency and without overly elaborate equipment. These well-prepared herbal medicines (or rather 'organic drugs') went on to successfully treat a variety of dysfunctions, some of which modern medicine struggles with, even to this day. From the Calculus Consortium based at Harvard University, this comprehensible book prepares readers for the study of calculus, presenting families of functions as models for change. These materials stress conceptual understanding and multiple ways of representing mathematical ideas. The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. Paper F9, Financial Management, aims to develop the knowledge and skills expected of a finance manager in relation to investment, financing and dividend decisions. F9 examines a wide range of financial management topics, many of which will be completely new to the student. There are a range of quite tricky calculations to perform as well as issues and techniques to explain and discuss. F9 is a middle level paper in the ACCA qualification structure, with some links to F2, and a direct link to P4, which thinks strategically. The key syllabus areas in F9 are: \* Financial management function \* Financial management environment \* Working capital management \* Investment appraisal \* Business finance \* Cost of capital \* Business valuations \* Risk management. This examiner-reviewed Study Text contains all you need to know for F9, featuring step-by-step guides to financial management techniques such as investment appraisal and business valuations, which many students find tricky. Exam formulae are clearly identified and explained with plenty of examples and questions for essential practice. Key terms are identified throughout to help you to learn new terminology such as beta factor and venture capital. BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams. This valuable guide to compounding elastomers with precipitated silica covers principles, properties, mixing, testing and formulations from a practical perspective. This handbook and reference manual will serve those who work on part design, elastomer formulation, manufacturing and applications of elastomers. Ample discussion of compound specifications adds to the usefulness of this book to practitioners. The author has over forty years of experience in the

rubber industry highlighted by his 39 years at the PPG Rubber Research laboratories. A highlight of the book is the inclusion of studies conducted by the author which greatly adds to the richness of the contents. This pioneering text provides a holistic approach to decisionmaking in transportation project development and programming, which can help transportation professionals to optimize their investment choices. The authors present a proven set of methodologies for evaluating transportation projects that ensures that all costs and impacts are taken into consideration. The text's logical organization gets readers started with a solid foundation in basic principles and then progressively builds on that foundation. Topics covered include: Developing performance measures for evaluation, estimating travel demand, and costing transportation projects; Performing an economic efficiency evaluation that accounts for such factors as travel time, safety, and vehicle operating costs; Evaluating a project's impact on economic development and land use as well as its impact on society and culture; Assessing a project's environmental impact, including air quality, noise, ecology, water resources, and aesthetics; Evaluating alternative projects on the basis of multiple performance criteria; Programming transportation investments so that resources can be optimally allocated to meet facility-specific and system-wide goals. Each chapter begins with basic definitions and concepts followed by a methodology for impact assessment. Relevant legislation is discussed and available software for performing evaluations is presented. At the end of each chapter, readers are provided resources for detailed investigation of particular topics. These include Internet sites and publications of international and domestic agencies and research institutions. The authors also provide a companion Web site that offers updates, data for analysis, and case histories of project evaluation and decisionmaking. Given that billions of dollars are spent each year on transportation systems in the United States alone, and that there is a need for thorough and rational evaluation and decision making for cost-effective system preservation and improvement, this text should be on the desks of all transportation planners, engineers, and educators. With exercises in every chapter, this text is an ideal coursebook for the subject of transportation systems analysis and evaluation.
