Literary darling Dermot Nolan is out of ideas and has reached crisis point. Then an unsigned manuscript falls into his hands, titled 'My Worst Nightmares - My Delicious Memoirs.' It tells of a homicidal twisted 'Dreamhealer' who snares his victims via a website called worstnightmares.net. He then seduces them into revealing their innermost fears and kills them by revisiting their very own nightmares upon them, magnified a hundred fold. Sweeping aside the dangers of plagiarism, Nolan reworks the manuscript, at the same time researching the 'fictional' killings. But are they 'fictional'? And could Nolan be writing his own ticket to death? A Tom Gray Novel: Book 1 When ex-soldier Tom Gray loses his wife and child to a career criminal, it seems life can't get much worse. Will Andrew Harvey and his fellow MI5 operatives find a way to stop him? For fans of James Rollins and Matthew Reilly comes a gripping, globe-spanning adventure in Andy McDermott's thrilling series featuring American archaeologist Nina Wilde and ex-SAS bodyguard Eddie Chase. History's most sought after treasure is now mankind's worst fear. In Los Angeles, a desperate man seeks out renowned archaeologist Nina Wilde and her husband, ex-SAS soldier Eddie Chase—only to be gunned down in front of them. The assassin is soon identified as a ninety-year-old Nazi war criminal—with the body of a healthy forty-year-old. Following the victim's final warnings, Nina and Eddie travel to Cairo to inspect the newly discovered tomb of Alexander the Great. But the real find is hidden in one of its treasures—a mechanical guide leading to one of antiquity's most tantalizing myths: a spring of water said to give eternal life to those who drink it. Nina, Eddie, and a team of Mossad agents realize that the myth is real, and that a group of former SS men who have tasted this water are now hunting for its source. But before they can act, Nina is kidnapped and spirited away to a secret Nazi enclave in Argentina, igniting a fierce, fateful, globe-spanning struggle in which her life hangs in the balance. All the while a terrifying possibility emerges—that the world's darkest evil could live on forever. Praise for the novels of Andy McDermott “Raises the bar to please adventure junkies who prefer to mainline their action.”—Publishers Weekly (starred review), on *The Hunt for Atlantis* “A fun, action-filled James Bond/Indiana Jones-esque story.”—Geek Speak Magazine, on *Return to Atlantis* “Adventure stories don't get much more epic than this.”—Daily Mirror (U.K.) Praise for *Kingdom of Darkness* “When it comes to archaeological adventure thrillers, I'm not sure that there's anyone writing in the genre today who is stronger, smarter, or

more consistent than Andy McDermott. His Nina Wilde and Eddie Chase series is like a mixture of Indiana Jones, James Bond, Dirk Pitt, and Jack Bauer. . . . Kingdom of Darkness is smart, clever, and exciting stuff. . . . If you're looking for a solid archaeological adventure that is as committed to the history as to the thrills, then this is definitely worth a read."—Beauty in Ruins "Nonstop, relentless extreme action . . . [McDermott's] thrillers have become increasingly accomplished, confident and rounded. The characters of Nina and Eddie are so well developed they appear almost to have a life of their own and their story has become arguably the most important aspect of the books. The plots are always exciting, pacy and gobsmacking [and] the runaway train action is matched by heart, with many laugh-out-loud lines as well as other scenes of devastating sadness or cruelty. What a fantastic series!"—For Winter Nights "As ever, Andy McDermott mixes high-action car chases, gun battles and mysterious quests, then shakes them well to provide an explosive cocktail. A breakneck running battle on a speeding train is an absolute classic, reminiscent of Bond films at their best."—Crime Review "An excellent thriller, exhausting, laugh-out-loud funny and gobsmackingly heartbreaking. If you like high octane thrillers then you cannot miss this book."—Parmenion Books

Investigates how data production and consumption territorialize the physical landscape filtered through Ireland's role in global communications and, as told by the Irish Pavilion at the 2021 Venice Architecture Biennale, features an installation that focuses on the materiality of data infrastructure in space. As our everyday lives become increasingly entangled with data technologies, the book addresses the utopian fantasy that surrounds the Cloud, as transcending physical presence or resourcing. By bringing the physical infrastructure around data, and its impact on the environment under the spotlight, it hopes to reframe how we understand data production and highlight the myth that information technologies are hidden and without major material manifestations on the landscape. The context for the book is Ireland which has a significant historical role in the evolution of global communications and data infrastructure. In 1866, the world's first transatlantic telegraph cable landed on the West coast of Ireland. In 1901, the inventor of the radio Guglielmo Marconi transmitted some of the world's first wireless radio messages from Ireland across the Atlantic Ocean to Newfoundland. Today, Dublin has overtaken London as the data centre hub of Europe, hosting 25% of all available European server space. And by the year 2027, data centres are forecast to consume a third of Ireland's total electricity

demand. The book aims to raise awareness around the hardware of the global internet and Cloud services, which is interwoven with the Irish landscape—made manifest through the vast constellation of data centres, fibre optic cable networks, and energy grids that have come to populate its cities and suburbs over recent decades. The publication accompanies and supports Entanglement, the Irish Pavilion at the 17th Venice Architecture Biennale by archiving the production of the pavilion filtered through a series of poetic excerpts that describe the form, components, content and furniture that make up the installation. At the same time the book is conceived as more than just a catalog by positioning some of the cultural and spatial implications of data technologies in Ireland within a more universal context through contributions by ANNEX, the team selected to produce the pavilion, as well as invited contributors from the disciplines of Media Theory; Journalism; Computer Science, Geography; History and Architecture. Along with two ex-army buddies and a woman he rescued from terrorists, Gray attempts to make his way home to the UK to clear his name: no easy feat when members of the British government want to kill Gray and his loyal friends, and the long clandestine journey home on a container ship gives Gray's nemesis, James Farrar, the time to hatch a plot to intercept him. As the weeklong Taungbyon Festival draws near, thousands of villagers from all regions of Burma descend upon a tiny hamlet near Mandalay to pay respect to the spirits, known as nats, which are central to Burmese tradition. At the heart of these festivities is Daisy Bond, a gay, transvestite spiritual medium in his fifties. With his sharp tongue and vivid performances, he has long been revered as one of the festival's most illustrious natkadaws. At his side is Min Min, his young assistant and lover, who endures unyielding taunts and abuse from his fiery boss. But when a young beggar girl named Pan Nyo threatens to steal Min Min's heart, the outrageous Daisy finds himself face-to-face with his worst fears. Written in lyrical, intoxicating prose, *Smile as They Bow* is, like the works of Arundhati Roy and Ha Jin, an unexpectedly whimsical, illuminating, and above all revealing portrayal of a culture few Westerners have ever witnessed. Over the past twenty years, Nu Nu Yi has become one of Burma's most acclaimed authors--and in 2007, she became the first person living in Burma to be nominated for an international literary award. *Smile as They Bow* was censored for more than twelve years by the Burmese government. It is fitting, then, that this is her American debut. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to? A young Mi'kmaq boy, Little Thunder, learns the importance of responsibility as his father teaches him, and then passes on, the role of Thundermaker. The authors of *Civilization One* return, bringing new evidence about the

Moon that will shake up our world. Christopher Knight and Alan Butler realized that the ancient system of geometry they presented in their earlier, breakthrough study works as perfectly for the Moon as it does the Earth. On further investigation, they found a consistent sequence of beautiful integer numbers when looking at every major aspect of the Moon--no such pattern emerges for any other planet or moon in the solar system. In addition, Knight and Butler discovered that the Moon possesses few or no heavy metals and has no core—something that should not be possible. Their persuasive conclusion: if higher life only developed on Earth because the Moon is exactly what it is and where it is, it becomes unreasonable to cling to the idea that the Moon is a natural object. The only question that remains is, who built it? class, race, justice, and the spectacular weirdness of Wichita. [McDermott] can move from barely controlled hilarity to the brink of rage to aching tenderness in a single breath."--Marya Hornbacher, *New York Times Book Review* Zack McDermott, a 26-year-old Brooklyn public defender, woke up one morning convinced he was being filmed, Truman Show-style, as part of an audition for a TV pilot. Every passerby was an actor; every car would magically stop for him; everything he saw was a cue from "The Producer" to help inspire the performance of a lifetime. After a manic spree around Manhattan, Zack, who is bipolar, was arrested on a subway platform and admitted to Bellevue Hospital. So begins the story of Zack's freefall into psychosis and his desperate, poignant, often hilarious struggle to claw his way back to sanity. It's a journey that will take him from New York City back to his Kansas roots and to the one person who might be able to save him, his tough, big-hearted Midwestern mother, nicknamed the Bird, whose fierce and steadfast love is the light in Zack's dark world. Before his odyssey is over, Zack will be tackled by guards in mental wards, run naked through cornfields, receive secret messages from the TV, befriend a former Navy Seal and his talking stuffed monkey, and see the Virgin Mary in the whorls of his own back hair. But with the Bird's help, he just might have a shot at pulling through, starting over, and maybe even meeting a partner who can love him back, bipolar and all. Introducing an electrifying new voice, **GORILLA AND THE BIRD** is a raw and unforgettable account of a young man's unraveling and the relationship that saves him. But if one man has the skills necessary to uncover the truth...it is Operative 66. After the terrorist explosion in which he is believed to have died, Tom Gray has been living a quiet life in the Philippines as Sam Grant, under the watchful eye of his government handler, James Farrar. His peace is short-lived; Farrar recruits him for a mission that needs Grant's particular skills, but fate intervenes when Grant is taken hostage in the southern islands by Abu Sayyaf, a militant organisation, and comes face-to-face with a dangerous former enemy. *Gray Resurrection*, the second book in the series, is an exciting and fast-paced thriller with an explosive conclusion that reintroduces the inimitable man-of-action, Tom Gray. A rain forest fable from Caldecott medalist Gerald McDermott **EVERY OPERATIVE KNOWS THE RULES.** The mission comes first. You are a deniable asset. Betrayal is punished by death. 'A writer of almost cinematic talent' **DAILY EXPRESS** Alex Reeve was Operative 66. A former special-ops soldier and one

of the UK's most lethal weapons, he was a member of SC9 - an elite covert unit with a remit to assassinate the country's most dangerous enemies. Falsely accused of treason, Reeve was condemned to live in the shadows as the merciless killers he once trained alongside were ordered to terminate the 'rogue asset'. But tricked into revealing himself, Reeve is dragged into a deadly international conspiracy involving the British state, shadowy Russian agents... and his own father, a violent murderer newly released from prison. But if there's one man who can survive... it is Operative 66. From the internationally bestselling author of the Wilde & Chase series comes an explosive new thriller - the perfect pulse-racing read for fans of LEE CHILD, VINCE FLYNN and GREGG HURWITZ.
