*DSP First* Jun 29 2020 For introductory courses (freshman and sophomore courses) in Digital Signal Processing and Signals and Systems. Text may be used before the student has taken a course in circuits. DSP First and its accompanying digital assets are the result of more than 20 years of work that originated from, and was guided by, the premise that signal processing is the best starting point for the study of electrical and computer engineering. The "DSP First" approach introduces the use of mathematics as the language for thinking about engineering problems, lays the groundwork for subsequent courses, and gives students hands-on experiences with MATLAB. The Second Edition features three new chapters on the Fourier Series, Discrete-Time Fourier Transform, and the The Discrete Fourier Transform as well as updated labs, visual demos, an update to the existing chapters, and hundreds of new homework problems and solutions.

Confessions of a Wayward Catholic May 29 2020 Confessions of a Wayward Catholic is a hilarious yet insightful account of Frank Scoblete's years from kindergarten through grandparenthood as a confused, wayward, seemingly ever-sinning Catholic. Join Frank for a possibly hell-bound ride as he attempts to understand what God and religion are all about. Will Frank reach the pearly gates or be banished to eternal damnation? "I love my husband but there is stuff in this book that is disgraceful and should never have been written!" - Alene Scoblete, wife "Francis Scoblete has been a major sinner ever since he came to elementary school. I watched him closely at the dances." - Sister Jerome Blake, in charge of making sure girls and boys slow danced a foot apart. "I don't know why Jewish kids went to a Catholic school but I'm proud they did well in religion." - Chief Rabbi Sol Bernstein "I believe that you should love your neighbor as yourself. Luckily, Frank lives in another town and is not my neighbor." - Jesus Christ "Scoblete says I have no sense of humor. I will afflict him with boils and sores over his whole body, just like I did Job." - God "Frank Scoblete has been wayward for over six decades. He's my main man!" - Satan

**Reinforced Concrete** Dec 24 2019 For one-semester, junior/senior-level and graduate courses in Reinforced Concrete in the department of civil engineering. Now reflecting the new 2008 ACI 318-08 Code and the new International Building Code (IBC-2006), the Sixth Edition of this cutting-edge text has been extensively revised to present state-of-the-art developments in reinforced concrete. It analyzes the design of reinforced concrete members through a unique and practical step-by-step trial and adjustment procedure. The narrative is supplemented with flowcharts to guide students logically through the learning process. Ample photographs of instructional testing of concrete members decreases the need for actual laboratory testing.

**Pattern Recognition** Apr 08 2021 This book constitutes the proceedings of the 12th Mexican Conference on Pattern Recognition, MCPR 2020, which was due to be held in Morelia, Mexico, in June 2020. The conference was held virtually due to the COVID-19 pandemic. The 31 papers presented in this volume were carefully reviewed and selected from 67 submissions. They were organized in the following topical sections: pattern recognition techniques; image processing and analysis; computer vision; industrial and medical applications of pattern recognition; natural language processing and recognition; artificial intelligence techniques and recognition.

Self Publish, be Happy Nov 22 2019 An economic and cultural revolution has shaken the photobook world in the last five years: self-publishing. An army of photographers operating as publishers have had an instrumental role in today's photobook renaissance. This book offers a do-it-yourself manual and a survey of key examples of self-published success stories, as well as a self-publishing manifesto and list of resources. The manual portion of this volume offers insight, advice, and rudimentary how-tos for the photographer interested in self-publishing. The survey offers an overview of the contemporary self-publishing landscape and includes a contribution by the Museum of Modern Art's art librarian and bibliographer David Senior, which grounds today's activities in a legacy of artists' books and collectives. The case studies themselves will each illustrate a particular theme and genre of self-publishing (such as diary, documentary, or conceptual object), and will be accompanied by personal testimonies from the artists who created them. Author Bruno Ceschel, founder of the Self Publish, Be Happy organization, provides a rallying cry for all those involved in the contemporary photobook revolution--a moment in which the photobook, in all its infinitesimal manifestations, has never before been so omnipresent in our cultural landscape, nor so critical to the photographer's practice. Self Publish, Be Happy, founded by Bruno Ceschel in 2010, collects, studies, and celebrates self-published photobooks through an ongoing program of workshops, live events, and on/ offline projects. Its London-based collection contains more than two thousand publications. Self Publish, Be Happy is the physical manifestation of a worldwide online community formed of a new, ever-evolving generation of young artists, who experiment, stretch, and play with the medium of photography.
