The International Journal of Interdisciplinary Social Sciences aims to examine the nature of disciplinary practices, and the interdisciplinary practices that arise in the context of 'real world' applications. It also interrogates what constitutes 'science' in a social context, and the connections between the social and other sciences. The journal discusses the distinctive disciplinary practices within the sciences of the social, and examines examples of these practices. In order to define and exemplify disciplinary practices, the journal fosters dialogue ranging from the broad and speculative to the microcosmic and empirical. In considering the varied interdisciplinary, transdisciplinary or multidisciplinary work across and between the social, natural and applied sciences, the journal showcases interdisciplinary practices in action. The focus of papers ranges from the finely grained and empirical, to wide-ranging multi-disciplinary and transdisciplinary practices, to perspectives on knowledge and method. The International Journal of Interdisciplinary Social Sciences is peer-reviewed, supported by rigorous, criterion-referenced article ranking and qualitative commentary processes, ensuring that only intellectual work of significance is published.

Orchid Biochemistry Jul 12 2021 Orchids are fascinating, with attractive flowers that sell in the markets and an increasing demand around the world. Additionally, some orchids are edible or scented and have long been used in preparations of traditional medicine. This book presents recent advances in orchid biochemistry, including original research articles and reviews. It provides in-depth insights into the biology of flower pigments, floral scent formation, bioactive compounds, pollination, and plant–microbial interaction as well as the biotechnology of protocorm-like bodies in orchids. It reveals the secret of orchid biology using molecular tools, advanced biotechnology, multi-omics, and high-throughput technologies and offers a critical reference for the readers. This book explores the knowledge about species evolution using comparative transcriptomics, flower spot patterning, involving the

anthocyanin biosynthetic pathways, the regulation of flavonoid biosynthesis, which contributes to leaf color formation, gene regulation in the biosynthesis of secondary metabolites and bioactive compounds, the mechanism of pollination, involving the biosynthesis of semiochemicals, gene expression patterns of volatile organic compounds, the symbiotic relationship between orchids and mycorrhizal fungi, techniques using induction, proliferation, and regeneration of protocorm-like bodies, and so on. In this book, important or model orchid species were studied, including *Anoectochilus roxburghii*, *Bletilla striata*, *Cymbidium sinense*, *Dendrobium officinale*, *Ophrys insectifera*, *Phalaenopsis 'Panda'*, *Pleione limprichtii*.

The Warrior State Mar 20 2022 Seemingly from its birth, Pakistan has teetered on the brink of becoming a failed state. Today, it ranks 133rd out of 148 countries in global competitiveness. Its economy is as

dysfunctional as its political system is corrupt; both rely heavily on international aid for their existence. Taliban forces occupy 30 percent of the country. It possesses over a hundred nuclear weapons that could easily fall into terrorists' hands. Why, in an era when countries across the developing world are experiencing impressive economic growth and building democratic institutions, has Pakistan been such a conspicuous failure? In *The Warrior State*, noted international relations and South Asia scholar T.V. Paul untangles this fascinating riddle. Paul argues that the "geostrategic curse"--akin to the "resource curse" that plagues oil-rich autocracies--is at the root of Pakistan's unique inability to progress. Since its founding in 1947, Pakistan has been at the center of major geopolitical struggles: the US-Soviet rivalry, the conflict with India, and most recently the post 9/11 wars. No matter how ineffective the regime is, massive foreign aid keeps pouring in from major powers and their allies with a stake in the region. The reliability of such aid defuses any pressure on political elites to launch the far-reaching domestic reforms necessary to promote sustained growth, higher standards of living, and more stable democratic institutions. Paul shows that excessive war-making efforts have drained Pakistan's limited economic resources without making the country safer or more stable. Indeed, despite the regime's emphasis on security, the country continues to be beset by widespread violence and terrorism. In an age of transnational terrorism and nuclear proliferation, understanding Pakistan's development, particularly the negative effects of foreign aid and geopolitical centrality, is more important than ever. Painstakingly researched and brilliantly argued, *The Warrior State* tackles what may be the world's most dangerous powder keg and uncovers the true causes of Pakistan's enormously consequential failure.

(IJSSRP) is an interdisciplinary peer reviewed journal. The objective of the journal is to serve as a forum for the exhibition and dissemination of scholarly activities in forms of current researches and thoughts on contemporary issues. The scope of IJSSRP is wide and all inclusive as it ranges from issues in the United States to global events and happenings. It welcomes all types of researches ranging from field and experimental to rigorous theoretical explanations. It welcomes empirically based studies and discussions based on abstractions and theoretical understanding. IJSSRP will serve as the forum for the promotion of positive exchange between nomothetic and idiographic traditions in the social sciences. The journal is independent of any particular school of thought and does not lean towards any theoretical perspective or viewpoint. Authors are not limited by their nationality, religion, subject matter or theoretical orientation. The journal is however interested in studies that will promote global unity and understanding towards achieving a peaceful global village, global social harmony and economic growth. It therefore promotes studies that can yield practical solutions to contemporary global social problems. International Journal of Open Source Software and Processes Feb 25 2020 The International Journal of Open Source Software and Processes (IJOSSP) publishes high-quality peer-reviewed and original research articles on the large field of open source software and processes. This wide area entails many intriguing question and facets, including the special development process performed by a large number of geographically dispersed programmers, community issues like coordination and communication, motivations of the participants, and also economic and legal issues. Beyond this topic, open source software is an example of a highly distributed innovation process led by the users. Therefore, many aspects have relevance beyond the realm of software and its development. In this tradition, IJOSSP also publishes papers on these topics. IJOSSP is a multi-disciplinary outlet, and welcomes submissions from all relevant fields of research and applying a multitude of research approaches.

Business Performance Measurement and Management May 22 2022 Measuring and managing the performance of a business is one of the most genuine desires of management. Balanced scorecard, the performance prism and activity-based management are the most popular frameworks in this setting. Based on the findings of R.G. Eccles' acclaimed "Performance Measurement Manifesto (1991)" this book introduces new contexts and themes of application and presents emerging

research areas related to business performance measurement and management, e.g. SMEs and sustainability. As a result of the 1st International Summer School Piero Lunghi on "Perspectives of Business Performance Management" this book is written both for students and academics, as well as for practitioners looking for new, yet proven ways to measure and manage business performance.

Engaging Language Learners in Contemporary Classrooms Nov 15 2021 This accessible book offers a fresh perspective on engagement, with an emphasis on how teachers can create the conditions for active engagement and the role learners can play in shaping the way they learn. The International Journal of the Humanities provides a space for dialogue and publication of new knowledge which builds on the past traditions of the humanities whilst setting a renewed agenda for their future. The humanities are a domain of learning, reflection and action, and a place of dialogue between and across epistemologies, perspectives and content areas. It is in these unsettling places that the humanities might be able to unburden modern knowledge systems of their restrictive narrowness. Discussions in The International Journal of the Humanities range from the broad and speculative to the microcosmic and empirical. Its over-riding concern, however, is to redefine our understandings of the human and mount a case for the disciplinary practices of the humanities. At a time when the dominant rationalisms are running a course that often seem draw humanity towards less than satisfactory ends, this journal reopens the question of the human-for highly pragmatic as well as redemptory reasons. The journal is relevant for academics across the whole range of humanities disciplines, research students, educators-school, university and further education-anyone with an interest in, and concern for the

humanities. The International Journal of the Humanities is peer-reviewed, supported by rigorous processes of criterion-referenced article ranking and qualitative commentary, ensuring that only intellectual work of the greatest substance and highest significance is published

Introducing English for Research Publication Purposes Feb 16 2022

There has been growing scholarly research and interest in writing for academic publication over the past decade and the field of English for Research Publication Purposes (ERPP) has established itself as an important domain within English for Academic Purposes (EAP). This

introductory volume provides a comprehensive view of what ERPP encompasses as a scholarly field, including its disciplinary boundaries, competing discourses within the field, research and practice paradigms, and future prospects for research and pedagogy in this field. The book portrays a multifaceted and nuanced picture of the discourses and discussions shaping and underlying ERPP as a scholarly field, focusing on key aspects of ERPP including: emergence and expansion of ERPP; key theoretical and methodological orientations framing ERPP research; writing for scholarly publication practices of EAL, Anglophone, and early-career scholars and graduate students; the pedagogy of ERPP and relevant international policies, practices, and initiatives; the advancement of digital technologies and the implications for ERPP; new directions in ERPP practice and research. This book is essential reading for students and scholars within the areas of applied linguistics, TESOL, and English for Academic Purposes.
