She believed werewolves were a myth...until she met one. For paranormal romance author Emma Gavin, werewolves only existed between the pages of her novels. They were seductive heroes drawn from her imagination, not living, breathing creatures in the real world. And they certainly were not wealthy lords of industry. And then the sexy Mr. Wallace sprouted fur. Offering to pose as Emma's bodyguard to deter a rogue Were should have been an easy assignment for pack alpha Aidan Wallace. She's human. He's Were. The two don't mix. But he didn't count on the temptation she would pose to his highly tuned senses. Or how hard it would be to resist her siren call. Denying the bond that's drawing them together could cost him his sanity. But surrendering to desire could cost him his life. A lighthearted paranormal series from the NYT bestselling author who brought you daring nerds and hunky cowboys. If you love sexy werewolves, spunky heroines, and a dash of humor, you'll love the Wild About You series! Wild About You These books are standalone romances and can be read in any order. Alaskan werewolf Jake Hunter's fascinated by Rachel Miller, his lovely neighbor across the lake. But he's the founder of WARM (Werewolves Against Random Mating) and becoming involved with a human female would be the height of hypocrisy. That's why he watches her from afar...until she accidentally crosses paths with a mother grizzly and her cub. Rachel's built her artistic reputation carving images of wolves inspired by a muscular male wolf she caught on camera. She never expected he'd show up again, let alone risk his life to save hers. Their connection borders on psychic, drawing her as she tracks him to Jake's cabin. Her reserved and reclusive neighbor rebuffs her accusations that he's harboring a wolf in his home, but her instincts tell her he's lying. And his haunting green eyes look exactly like the wolf's... Summer is the only time Maddie lets her real self out to play, but when she slips up and the adorkable guy behind the local comic shop's counter uncovers her secret, she's busted. Before she can shake a pom-pom, Maddie's whisked into Logan's world of comic conventions, live-action role-playing, and first-person-shooter video games. And she loves it. But the more she denies who she really is, the deeper her lies become...and the more she risks losing Logan forever. You're looking for a Nerdy or Geeky Joke?
