Kept as pets, raised for their milk, meat, or fiber, or prized for their beauty or rarity, goats are increasingly popular animals on farms large and small. Whether you raise a favored few or a hundred head, this guide is the ultimate resource on North American breeds. The book provides detailed descriptions of more than twenty goat breeds found in the United States and Canada, from the popular Nubian, Pygmy, and Boer to the rare and lovely Golden Guernsey. Illustrated with 150 color photographs, this convenient, easy-to-use field guide includes exhaustive information about behavior, characteristics, breeding, and history, as well as a glossary of caprine terms and a list of breed associations. It is the essential reference that anyone with an interest in goats should not be without. Examines the character and history of the Italian people. A comprehensive study guide offering in-depth explanation, essay, and test prep for Mark Twain's *The Adventures of Tom Sawyer*, the best-selling of Twain's work. As a novel written in 1876, *The Adventures of Tom Sawyer* follows the antics of a young boy during his childhood on the Mississippi River. Moreover, Twain examines the

carefree spirit of children, manipulation, and race in this lighthearted novel through the use of imagery and symbolism. This Bright Notes Study Guide explores the context and history of Twain's classic work, helping students to thoroughly explore the reasons it has stood the literary test of time. Each Bright Notes Study Guide contains: - Introductions to the Author and the Work - Character Summaries - Plot Guides - Section and Chapter Overviews - Test Essay and Study Q&As

The Bright Notes Study Guide series offers an in-depth tour of more than 275 classic works of literature, exploring characters, critical commentary, historical background, plots, and themes. This set of study guides encourages readers to dig deeper in their understanding by including essay questions and answers as well as topics for further research. The New York Times bestselling, "meticulously researched and absorbingly written" (The Washington Post) story of the trailblazers and the ordinary Americans on the front lines of the epic Apollo 11 moon mission. President John F. Kennedy astonished the world on May 25, 1961, when he announced to Congress that the United States should land a man on the Moon by 1970. No group was more surprised than the scientists and engineers at NASA, who suddenly had less than a decade to invent space travel. When Kennedy announced that goal, no one knew how to navigate

to the Moon. No one knew how to build a rocket big enough to reach the Moon, or how to build a computer small enough (and powerful enough) to fly a spaceship there. No one knew what the surface of the Moon was like, or what astronauts could eat as they flew there. On the day of Kennedy's historic speech, America had a total of fifteen minutes of spaceflight experience—with just five of those minutes outside the atmosphere. Russian dogs had more time in space than US astronauts. Over the next decade, more than 400,000 scientists, engineers, and factory workers would send twenty-four astronauts to the Moon. Each hour of space flight would require one million hours of work back on Earth to get America to the Moon on July 20, 1969. "A veteran space reporter with a vibrant touch—nearly every sentence has a fact, an insight, a colorful quote or part of a piquant anecdote" (The Wall Street Journal) and in One Giant Leap, Fishman has written the sweeping, definitive behind-the-scenes account of the furious race to complete one of mankind's greatest achievements. It's a story filled with surprises—from the item the astronauts almost forgot to take with them (the American flag), to the extraordinary impact Apollo would have back on Earth, and on the way we live today. From the research labs of MIT, where the eccentric and legendary pioneer Charles Draper created the tools to fly the Apollo spaceships, to the factories where

dozens of women sewed spacesuits, parachutes, and even computer hardware by hand, Fishman captures the exceptional feats of these ordinary Americans. “It’s been 50 years since Neil Armstrong took that one small step. Fishman explains in dazzling form just how unbelievable it actually was” (Newsweek). “A mosaic mystery told in vignettes, cliffhangers, curious asides, and some surreal plot twists as Raffel investigates the secrets of the man who changed infant care in America.”—NPR, 2018's Great Reads What kind of doctor puts his patients on display? This is the spellbinding tale of a mysterious Coney Island doctor who revolutionized neonatal care more than one hundred years ago and saved some seven thousand babies. Dr. Martin Couney's story is a kaleidoscopic ride through the intersection of ebullient entrepreneurship, enlightened pediatric care, and the wild culture of world's fairs at the beginning of the American Century. As Dawn Raffel recounts, Dr. Couney used incubators and careful nursing to keep previously doomed infants alive, while displaying these babies alongside sword swallowers, bearded ladies, and burlesque shows at Coney Island, Atlantic City, and venues across the nation. How this turn-of-the-twentieth-century émigré became the savior to families with premature infants—known then as “weaklings”—as he ignored the scorn of the medical establishment and fought the rising popularity of

eugenics is one of the most astounding stories of modern medicine. Dr. Couney, for all his entrepreneurial gusto, is a surprisingly appealing character, someone who genuinely cared for the well-being of his tiny patients. But he had something to hide... Drawing on historical documents, original reportage, and interviews with surviving patients, Dawn Raffel tells the marvelously eccentric story of Couney's mysterious carnival career, his larger-than-life personality, and his unprecedented success as the savior of the fragile wonders that are tiny, tiny babies. A book written for Junior Handlers by a junior handler. Also, for adults who want insider tips! Anne has been a highly successful Junior Handler competitor for eight years and has qualified six times to compete at Westminster. Her mother, Denise is the editor of the Lhasa Apso Reporter and an AKC judge of Junior Showmanship. Together they set out to write the classic book on Junior Showmanship. Their goal was to make this more than a picture book with a few pointers. In that they have succeeded admirably. The lessons are so self-explanatory that even a junior located far away from help and with no access to handling classes could pick up the book and learn to show at a fairly competitive level. Based in part on material in the author's previous books, Dog Logic and Advanced Obedience, this

training guide includes basic obedience training, preparation for showing dogs, and group activities. If you want to learn how to raise horses, then keep reading... By embarking on a quest to dunk a basketball at the age of 34, journalist Asher Price investigates the limits of human potential—starting with his own. We all like to think that (with a little practice) we could run faster, learn another language, or whip up a perfect soufflé. But few of us ever put those hopes to the test. In Year of the Dunk, Asher Price does, and he seizes on basketball's slam dunk--a feat richly freighted with distinctly American themes of culture, race, and upward mobility--as a

gauge to determine his own hidden potential. The showmanship of the dunk mesmerized Asher as a child, but even with his height (six foot plus) and impressive wingspan, he never pushed himself to try it. Now, approaching middle age, Asher decides to spend a year remaking his body and testing his mind as he wonders, like most adults, what untapped talent he still possesses. In this humorous and often poignant journey into the pleasures and perils of exertion, Asher introduces us to a memorable cast of characters who help him understand the complexity of the human body and the individual drama at the heart of sports. Along the way he dives into the history and science of one of sports' most exuberant acts, examining everything from our genetic predisposition towards jumping to the cultural role of the slam dunk. The year-long effort forces him to ask some fundamental questions about human ability and the degree to which we can actually improve ourselves, even with great determination. From the #1 internationally bestselling author of the "lush, evocative Gothic" (The New York Times Book Review) *The Doll Factory* comes an atmospheric and spectacular novel about a woman transformed by the arrival of a Victorian circus of wonders—"as moving as it is deeply entertaining" (Daniel Mason, New York Times bestselling author). Step up, step up! In 1860s England, circus mania is sweeping the

nation. Crowds jostle for a glimpse of the lion-tamers, the dazzling trapeze artists and, most thrilling of all, the so-called “human wonders.” When Jasper Jupiter’s Circus of Wonders pitches its tent in a poor coastal town, the life of one young girl changes forever. Sold to the ringmaster as a “leopard girl” because of the birthmarks that cover her body, Nell is utterly devastated. But as she grows close to the other performers, she finds herself enchanted by the glittering freedom of the circus, and by her own role as the Queen of the Moon and Stars. Before long, Nell’s fame spreads across the world—and with it, a chance for Jasper Jupiter to grow his own name and fortune. But what happens when her fame begins to eclipse his own, when even Jasper’s loyal brother Toby becomes captivated by Nell? No longer the quiet flower-picker, Nell knows her own place in the world, and she will fight for it. Circus of Wonders is a beautiful story about the “complex dance between exploitation and empowerment, and the question of what it really means to have control over your own life” (Naomi Ishiguro, author of *Escape Routes*). A renowned stage magician reveals the secrets of The Mentalist's brainpower. On the hit television show *The Mentalist*, protagonist Patrick Jane employs his keen powers of observation and mental acuity to assist the police. Now, noted stage magician Simon Winthrop explains *How to Be a Mentalist* by

revealing how Jane comes to his startlingly accurate conclusions- and also asserts that it's possible for anyone to bring similar skills to bear in their everyday life. Featuring intellectual and physical exercises, readers will learn how to reach their fullest mental potential by enhancing memory, developing observational abilities, using persuasion, and much more. Before there was hip hop, there was DJ Kool Herc. On a hot day at the end of summer in 1973 Cindy Campbell threw a back-to-school party at a park in the South Bronx. Her brother, Clive Campbell, spun the records. He had a new way of playing the music to make the breaks—the musical interludes between verses—longer for dancing. He called himself DJ Kool Herc and this is When the Beat Was Born. From his childhood in Jamaica to his youth in the Bronx, Laban Carrick Hill's book tells how Kool Herc came to be a DJ, how kids in gangs stopped

fighting in order to breakdance, and how the music he invented went on to define a culture and transform the world. A Study Guide for W. P. Full of tips and techniques that work, this guide will help you look forward to your best, most confident presentations ever! This book is designed to aid us in getting to know God for who he is and help develop knowledge of the God we are to worship. How can we worship a God that we don't know? It seems that more often than not, our worship preparation and presentation are done without any spirit or thought of God. Man seems to be on stage

to present his own cause through showmanship and entertainment. A real presence of God is not sought and, in some places, may not be welcome. Worship seems to have lost its fire and definitely its fire power. There seems to be a missing element in going into the sanctuary to worship; we are trying to help rediscover the humbling spirit, awe, and adoration of God. The original uncut edition of STRANGER IN A STRANGE LAND by Hugo Award winner Robert A Heinlein - one of the most beloved, celebrated science-fiction novels of all time. Epic, ambitious and entertaining, STRANGER IN A STRANGE LAND caused controversy and uproar when it was first published and is still topical and challenging today. Twenty-five years ago, the first manned mission to Mars was lost, and all hands presumed dead. But someone survived... Born on

the doomed spaceship and raised by the Martians who saved his life, Valentine Michael Smith has never seen a human being until the day a second expedition to Mars discovers him. Upon his return to Earth, a young nurse named Jill Boardman sneaks into Smith's hospital room and shares a glass of water with him, a simple act for her but a sacred ritual on Mars. Now, connected by an incredible bond, Smith, Jill and a writer named Jubal must fight to protect a right we all take for granted: the right to love. In this book you'll learn how to: tap into your passion as a teacher - even when you're less than excited about the subject; develop creative presentations that capture your students' interest; establish rapport and a sense of camaraderie in your classroom; transform your class into a life-changing experience for your students. --from back cover. Would You Like to Become More Commanding, Convincing, And Charismatic? In this book, Steve Cohen, master magician and star of the long-running Chamber Magic show in New York City, will reveal the secrets of all great showmen and magicians—how to persuade, influence, and charm, and ultimately accomplish the things you've always wanted to do. As Cohen writes, "You'll discover how to take over a room, read people, and build anticipation to a feverish pitch so people are burning to hear what you have to say." Win the Crowd will teach you

Steve Cohen's Maxims of Magic, simple rules you can use to take charge of practically any situation, from on-the-job disagreements to dating to important cocktail parties. The Maxims of Magic will wash away insecurities and hesitations, and replace them with confidence, poise, and leadership. What's more, Steve Cohen will show you: How to Create a Magic Moment. Capturing people's imaginations and attention so they listen carefully to every word you say. How to Command a Room. Showing everyone in the room that you are speaking right to them, making them all feel unique—and completely focused on you. How to Read People. Learning to sense what people are feeling and thinking as you speak, what they want from you, and how to make them feel like they are getting it. Misdirection. The most important trick in all of magic—getting inside people's heads, and directing what they are thinking at every minute. When you strip away the sleight of hand tricks, magicians are essentially masters of attracting and holding attention and impressing audiences, exactly the psychological secrets you need to be successful in life and business. Highly instructive book by a noted authority on the subject analyzes every phase of conjuring, from sleights, devices, misdirection, and controlling audience attention to incorporating patter and the effective use of assistants. The Book of Five Rings is a text on kenjutsu and the martial

arts in general, written by the Japanese swordsman Miyamoto Musashi around 1643. Written over three centuries ago by a Samurai warrior, the book has been hailed as a limitless source of psychological insight for businessmen-or anyone who relies on strategy and tactics for outwitting the competition.
