Mad Movies with the LA Connection Sep 05 2021 Shirley Temple possessed by demons? Danny Kaye singing like Michael Jackson? Are the characters in Night of the Living Dead planning a party? There's nothing wrong with your television set. It's Mad Movies with the L.A. Connection, the television show that ran from 1985-1989 in the wee hours of the night. Founded in 1977, The L.A. Connection is still going strong with sketch comedy, improv and "mock dubbing" of movies and television. Author Mike White (Impossibly Funky: A Cashiers du Cinemart Collection) looks at the history of The L.A. Connection and their many projects from Flicke of the Night to Reefer Madness II, to Blobermouth, and beyond. "... a slim yet incredibly informative chronicle of how improve comedy troupe The L.A. Connection transformed a popular stage routine - redubbing old films for a live crowd - into one of '80s TV's 'best kept secrets.' Premiering in 1985, airing on independent stations across the country (as well as later reruns on Nick At Night) and lasting 26 episodes, the show edited hoary feature-length films down to easy-to-digest, half-hour chunks, then gave 'em all-new, wacky dialogue. In addition to reminiscences from L.A. Connection founder Kent Skov and colleagues, who recall the creative energy and technical work that went into making this outlandish show, Mike White fills out his 122-page softcover with a brief history of 'mock dub' cinema, the birth of the L.A. Connection, an episode guide, rare photos, plus the group's other film-dubbing projects." - Shock Cinema

Chromecast Device User Guide Aug 24 2020 Since the internet speeds went above the 500kbps mark, the number of things people can do with their interconnected devices skyrocketed. Automated homes, connected cars, and internet enabled TVs. The latter is what threatens to revolutionize the entertainment world as we know it, do away with cable TV and abolish the need for expensive blue-ray players. Even though smart TVs are so lucrative, most people find them either too costly, or limiting. The alternative would be going for a TV with an HDMI port, a USB port and purchasing a dongle to bring in the power of internet TV. Chromecast is one of the best and cheapest such tools in the market.

Hooked: Drug War Films in Britain, Canada, and the U.S. Jul 23 2020 Drug prohibition emerged at the same time as the discovery of film, and their histories intersect in interesting ways. This book examines the ideological assumptions embedded in the narrative and imagery of one hundred fictional drug films produced in Britain, Canada, and the U.S. from 1912 to 2006, including Broken Blossoms, Reefer Madness, The Trip, Superfly, Withnail and I, Traffik, Traffic, Layer Cake, Harold and Kumar Go to White Castle, Trailer Park Boys, and more. Boyd focuses on past and contemporary illegal drug discourse about users, traffickers, drug treatment, and the intersection of criminal justice with counterculture, alternative, and stoner flicks. She provides a socio-historical and cultural criminological perspective, and an analysis of race, class and gender representations in illegal drug films. This illuminating work will be an essential text for a wide range of students and scholars in the fields of criminology, sociology, media, gender and women's studies, drug studies, and cultural studies.

Videoland Nov 26 2020 Videoland offers a comprehensive view of the "tangible phase" of consumer video, when Americans largely accessed movies as material commodities at video rental stores. Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s, changing the way Americans socialized around movies and collectively made movies meaningful. When films became tangible as magnetic tapes and plastic discs, movie culture flowed out from the theater and the living room, entered the public retail space, and became conflated with shopping and salesmanship. In this process, video stores served as a crucial embodiment of movie culture—historical move toward increased flexibility, adaptability, and customization. In addition to charting the historical rise and fall of the rental industry, Herbert explores the architectural design of video stores, the social dynamics of retail encounters, the video distribution industry, the proliferation of video recommendation guides, and the often surprising persistence of the video store as an adaptable social space of consumer culture. Drawing on ethnographic fieldwork, cultural geography, and archival research, Videoland provides a wide-ranging exploration of the pivotal role video stores played in the history of motion pictures, and is a must-read for students and scholars of media history.
