Winning Legal Strategies for Telecom Companies Jan 23 2020 Inside the Minds: Winning Legal Strategies for Telecommunications Companies is an authoritative, insider's perspective on the laws which govern the telecommunications industry, and the future of telecom regulation on a global scale. Featuring General Counsels, Group Chairs, and Department Heads, all representing some of the nation's top telecom companies and law firms, this book discusses the current shape and future state of telecom regulation, from the founding doctrines to the pivotal cases of today. Authors identify both common and unique issues facing telecom companies and discuss proven strategies for resolving them, as well as critical steps to

take to avoid these issues in the future. From examining the most significant laws that affect the industry today, to tactics around keeping up to date, these authorities articulate the finer points around telecommunications law and what will hold true into the future. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today as experts present key strategies for solving and preventing legal issues in this complex and ever-changing industry. About *Inside the Minds: Inside the Minds* provides readers with proven business intelligence from C-Level executives (Chairman, CEO, CFO, CMO, Partner) from the world's most respected companies nationwide, rather than third-party accounts from unknown authors and analysts. Each chapter is comparable to an essay/thought leadership piece and is a future-oriented look at where an industry, profession or topic is headed and the most important issues for the future. Through an exhaustive selection process, each author was hand-picked by the *Inside the Minds* editorial board to author a chapter for this book. This book is by: Phillip L. Spector, Executive Vice President and General Counsel, Intelsat Holdings, Ltd. - "Legal Strategies in Telecommunications: The Regulatory Aspect", Jennifer A. Manner, Vice President, Regulatory Affairs, Mobile Satellite Ventures, L.P. - "Telecommunications Regulation from an FCC Perspective", Lawrence R. Freedman, Partner, Fleischman and Walsh, L.L.P. - "Evolving Legal Strategies for an Evolving Industry", Ted O'Neal, Partner, Lasco Development Corporation - "A Survey of Key Legal and Regulatory Issues in Today's Complex Telecommunications Environment", Peter A. Deliso, Vice President, Corporate Development, General Counsel, & Secretary, LCC International, Inc. - "Finding Telecommunications Solutions in the Current Environment", Judith A. Endejan, Shareholder, Graham & Dunn - "Regulatory and Legal Challenges for Telecom Companies", Michael L. Taviss, General Counsel, MegaPath Networks, Inc. - "The Legal Side of Technology"

It offers a tool for strategic planning, competitive intelligence, employment searches or financial research. It includes a chapter of trends, statistical tables, and an industry-specific glossary. It provides profiles of the 500 biggest, companies in the telecommunications industry.

Indian Multinationals in the World Economy Mar 05 2021 Indian multinationals have been active in the world economy since early 1960s. However, their number and scale of operation have grown significantly in the last fifteen years or so. In the face of increasing global competition unleashed by extensive liberalization measures, Indian firms have adopted the strategy of outward foreign direct investment (OFDI) as an integral part of their business strategies. By undertaking greenfield OFDI and brownfield OFDI for acquiring foreign companies, Indian firms are enhancing their potential for growth and global competitiveness. Consequently India has emerged as a major developing source country of FDI and Indian multinationals are likely to affect world development in several ways. The book analyses the phenomenon of Indian multinationals from both macro level factors and firm-level corporate strategies and examines its implications for India and host countries. A detailed investigation of Indian overseas investment flows and stocks from sectoral, regional, ownership and

motivational perspectives provides a rigorous long-run coverage of Indian multinational firms from 1970s onwards. The role of innovation, entrepreneurial skills, scale of business, productivity, and the role of government policies, received critical attention in explaining the emergence of Indian multinationals. The comprehensive quantitative and case studies approach offers valuable insights into the behaviour and impacts of these new global actors on home and host countries. This book offers a number of lessons to home country, host countries, and Indian enterprises becoming multinationals. With the growing global interest from policy makers, business practitioners, researchers, and students in Indian multinationals, this book would serve as an important and timely reading for all of them.
