The Heyday of Malcolm Margolin Jul 23 2020 For forty years, Heyday has been publishing California's stories--from Native peoples to newly arrived immigrants, from the startlingly diverse Klamath Basin to the politically fraught California-Mexico border, from delicate Calliope hummingbirds to 14,000-foot summits. Kim Bancroft spent hundreds of hours interviewing founder Malcolm Margolin and a host of current and former staff, authors, board members, friends, and cultural leaders to tell the story of, as the San Francisco Chronicle put it, the "plucky Bay Area publisher [that] not only still stands but continues to innovate." A compelling portrait emerges of a deeply committed leader and the community and river of beauty that have nourished him. Brimming with humor, emotion, and purpose, *The Heyday of Malcolm Margolin* shows readers the intricacies of a small press with big ideas.

The Way We Lived Dec 20 2022 A collection of reminiscences, stories, and songs that reflect the diversity of the people native to California.

Berkeley Walks Jan 09 2022 Berkeley Walks celebrates the things that make Berkeley such a wonderful walking city—diverse architecture, panoramic views, tree-lined neighborhoods, historic homes, unusual gardens, secret pathways, hidden parks, vibrant street life, trend-setting restaurants, and intriguing history. Fascinating and surprising sidelights include the apartment building from which Patty Hearst was kidnapped; Ted Kaczynski's home before he became the Unabomber; and the residences of Nobel laureates and literary Berkeleyans such as Thornton Wilder, Ann Rice, and Philip K. Dick. Bob Johnson and Janet Byron—longtime city residents and tour guides—designed these 18 walks to showcase the many elements that make Berkeley's neighborhoods, shopping districts, and academic areas such fun to explore. Visitors will discover a vibrant community beyond the University of California campus borders, while locals will be surprised and delighted by the treasures in their own backyards. Highlights of the book include a focus on architects Joseph Esherick, John Galen Howard, Bernard Maybeck, Julia Morgan, James Plachek, Walter Ratcliff, Jr., and John Hudson Thomas, 100 archival and original photos, and 20 maps, including a map of Berkeley bookstores.

Indian Summer Aug 04 2021 In 1850, six-year-old Thomas Jefferson Mayfield was adopted by the Choinumne Yokuts of California's San Joaquin Valley. For the next dozen years he slept in their houses, joined them on their daily rounds, and followed them on their annual expeditions by tule boat to Tulare Lake. He spoke their language, wore their style of dress, ate their foods, and in short, lived almost entirely like an Indian. The reminiscences he left behind are unique: the only known account by any outsider who lived among a California Indian people while they were still following their traditional ways. Rich in detail and anecdote, *Indian Summer* tells how the Choinumne built their houses, navigated their boats, hunted their game, and prepared their foods. It also provides a rare and welcome glimpse into the intimacies of daily life. Enlightening as well are descriptions of the natural landscape of the San Joaquin Valley in the 1850s--of the expansive flowery meadows, the lakes and sloughs, the great forests of valley oaks, the herds of antelope, the surge of salmon that fought their way up the rivers, the flight of geese and ducks that darkened the sky. Abounding in information that anthropologist John P. Harrington described as "rescued from oblivion," *Indian Summer* portrays with accuracy, zest, and insight the nearly lost and beautiful world of the Choinumne Yokuts and the valley in which they lived. --From publisher description.

The Elusive Eden Nov 07 2021 California is a region of rich geographic and human diversity. The *Elusive Eden* charts the historical development of California, beginning with landscape and climate and the development of Native cultures, and continues through the election of Governor Gavin Newsom. It portrays a land of remarkable richness and complexity, settled by waves of people with diverse cultures from around the world. Now in its fifth edition, this up-to-date text provides an authoritative, original, and balanced survey of California history incorporating the latest scholarship. Coverage includes new material on political upheavals, the global banking crisis, changes in education and the economy, and California's shifting demographic profile. This edition of *The Elusive Eden* features expanded coverage of gender, class, race, and ethnicity, giving voice to the diverse individuals and groups who have shaped California. With its continued emphasis on geography and environment, the text also gives attention to regional issues, moving from the metropolitan areas to the state's rural and desert areas. Lively and readable, *The Elusive Eden* is organized in ten parts. Each chronological section begins with an in-depth narrative chapter that spotlights an individual or group at a critical moment of historical change, bringing California history to life.

People's History of Silicon Valley Dec 16 2019 Regardless of where you live or work, Silicon Valley undoubtedly touches your life--the tech industry's gadgets and apps promise us more efficient, convenient, and fun lives. Yet despite Silicon Valley's utopian promises, more and more of us find ourselves addicted to our smartphones, made insecure by social media, gentrified away by tech wealth, and alarmed at social media companies profiting off personal data. This succinct guide follows Silicon Valley and the tech industry from the beginning of the twentieth century to the present day, tracing how Silicon Valley changed the San Francisco Bay Area, changed human culture, and ultimately changed the

way we think about ourselves. From the first Macintosh to the rise of social media, *A Brief History of Silicon Valley* peels back the curtain on an industry that brands itself as visionary but which may be swiftly hurtling us towards dystopia.

Malcolm Margolin Papers Sep 05 2021 Collection comprises correspondence, manuscripts, and personal papers of Malcolm Margolin created between the early 1960s and early 2000. The bulk of the collection consists of notebooks containing personal writings; research notes on native peoples of California and the natural history of the Bay Area; and information regarding his work in publishing. Additionally, there are articles and short stories written by Margolin and submitted for publication from the early 1960s to the 1970s, including correspondence between the author and publisher about the material. There is also a small amount of correspondence with family and friends.

Deep Hanging Out: Wanderings and Wonderment in Native California Jan 21 2023 Fifty years of deep hanging out in California's Indian country. Writer and publisher Malcolm Margolin has been "deep hanging out"--or immersing himself in a social, informal way--in California's Indian country since the 1970s. This volume collects thirty articles, introductions, and other pieces he wrote about California's diverse Indian country (well over one hundred tribes), drawn mainly from the quarterly magazine he cofounded in 1987, *News from Native California*. He shares with his readers the experiences, knowledge, and cultural renewal that California Indians have generously shared with him, often after years of friendship, from the erection of a ceremonial enclosure in Northern California--built to fall apart within a generation so that the knowledge of how to construct one is always current--to a visit by aboriginal Hawaiians in diplomatic recognition of native Southern Californian tribes. He draws on both archives and interviews with elders in longer reports about leadership traditions, pedagogical techniques, and conservation practices in various parts of the state--fascinating glimpses into worldviews very different from those of contemporary America. Filled with insight and affection, as well as some of the most gorgeous writing, *Deep Hanging Out* will appeal both to newcomers and to those whose roots and hearts reside in the state's Indian country.

Adopted by Indians May 21 2020 The author reveals how, as a boy in the 1850s, he spent ten years with the Choinumne Indians, a branch of the Yokuts, in the southern San Joaquin Valley, and describes their way of life.

A World Transformed Oct 06 2021 California changed dramatically in the years between the founding of the first mission in 1769 and the 1848 gold rush. These eleven eyewitness accounts vividly describe the first European land expedition into an unknown territory; the spread of the missions; the rule of Spain and then Mexico; the rise and fall of California's Russian colony; the emergence of rancho culture; the semi-feudal empires of Vallejo and Sutter; and the arrival of Anglo-Americans as ship-deserters, settlers, traders, and ultimately -- perhaps inevitably -- the masters of California.

For All the People Jun 02 2021 Seeking to reclaim a history that has remained largely ignored by most historians, this dramatic and stirring account examines each of the definitive American cooperative movements for social change—farmer, union, consumer, and communalist—that have been all but erased from collective memory. Focusing far beyond one particular era, organization, leader, or form of cooperation, *For All the People* documents the multigenerational struggle of the American working people for social justice. While the economic system was in its formative years, generation after generation of American working people challenged it by organizing visionary social movements aimed at liberating themselves from what they called wage slavery. Workers substituted a system based on cooperative work and constructed parallel institutions that would supersede the institutions of the wage system. With an expansive sweep and breathtaking detail, this scholarly yet eminently readable chronicle follows the American worker from the colonial workshop to the modern mass-assembly line, from the family farm to the corporate hierarchy, ultimately painting a vivid panorama of those who built the United States and those who will shape its future. John Curl, with over forty years of experience as both an active member and scholar of cooperatives, masterfully melds theory, practice, knowledge, and analysis, to present the definitive history from below of cooperative America. This second edition contains a new introduction by Ishmael Reed; a new author's preface discussing cooperatives in the Great Recession of 2008 and their future in the 21st century; and a new chapter on the role co-ops played in the Food Revolution of the 1970s.

California Native American Tribes: Achumawi Feb 27 2021

Monterey in 1786 Apr 12 2022 On the afternoon of September 14, 1786, two French ships appeared off the coast of Monterey, the first foreign vessels to visit Spain's California colonies. Aboard was a party of eminent scientists, navigators, cartographers, illustrators, and physicians. For the next ten days the commander of this expedition, Jean François de La Pérouse, took detailed notes on the life and character of the area: its abundant wildlife, the labors of soldiers and monks, and the customs of Indians recently drawn into the mission. These observations provide a startling portrait of California two centuries ago.

The Ohlone Jun 14 2022 The Ohlone occupied a large region of California, spanning from what is now San Francisco along the coast and into the center of the state. This group of people was characterized by the well-organized villages in which they lived, the customs they practiced, and the language they spoke. However, much of this changed when the Europeans invaded Ohlone country in 1769. They faced disease, discrimination, and a loss of their original lifestyle. Today, the Ohlone still fight for the preservation of their culture and traditions. This book sheds light on the Ohlone way of life prior to the European arrival and the importance of respecting American Indians' rights.

The Heart of Tracking Feb 10 2022 Literary Nonfiction. California Interest. Religion & Spirituality. Originally published in recurring dispatches for a small town newspaper, this collection of essays by noted California naturalist Richard Vacha reads like a delighted field journal, full of insights into the mystic, sensory, and nearly-forgotten world of animal tracking. Through a series of outings, Vacha traverses the prismatic experience of tracking and brings it to our level. Practical investigations of signs and tracks draw close to the lives of all the animals in his landscape, including bobcats, badgers, skunks, coyotes, and one particular vulture. With spontaneous energy, Vacha's essays reveal the practice of asking sacred questions, and the process of stripping down to your senses in order to enter this primal awareness.

The Ohlone Way Feb 22 2023 A look at what Native American life was like in the Bay Area before the arrival of Europeans. Two hundred years ago, herds of elk and antelope dotted the hills of the San Francisco–Monterey Bay area. Grizzly bears lumbered down to the creeks to fish for silver salmon and steelhead trout. From vast marshlands geese, ducks, and other birds rose in thick clouds “with a sound like that of a hurricane.” This land of “inexpressible fertility,” as one early explorer described it, supported one of the densest Indian populations in all of North America. One of the most ground-breaking and highly-acclaimed titles that Heyday has published, *The Ohlone Way* describes the culture of the Indian people who inhabited Bay Area prior to the arrival of Europeans. Recently included in the San Francisco Chronicle’s Top 100 Western Non-Fiction list, *The Ohlone Way* has been described by critic Pat Holt as a “mini-classic.” Praise for *The Ohlone Way* “[Margolin] has written thoroughly and sensitively of the Pre-Mission Indians in a North American land of plenty. Excellent, well-written.” —American Anthropologist “One of three books that brought me the most joy over the past year.” —Alice Walker “Margolin conveys the texture of daily life, birth, marriage, death, war, the arts, and rituals, and he also discusses the brief history of the Ohlones under the Spanish, Mexican, and American regimes . . . Margolin does not give way to romanticism or political harangues, and the illustrations have a gritty quality that is preferable to the dreamy, pretty pictures that too often accompany texts like this.” —Choice “Remarkable insight in to the lives of the Ohlone Indians.” —San Francisco Chronicle “A beautiful book, written and illustrated with a genuine sympathy . . . A serious and compelling re-creation.” —The Pacific Sun

Pictures of a Gone City May 13 2022 The San Francisco Bay Area is currently the jewel in the crown of capitalism—the tech capital of the world and a gusher of wealth from the Silicon Gold Rush. It has been generating jobs, spawning new innovation, and spreading ideas that are changing lives everywhere. It boasts of being the Left Coast, the Greenest City, and the best place for workers in the USA. So what could be wrong? It may seem that the Bay Area has the best of it in Trump’s America, but there is a dark side of success: overheated bubbles and spectacular crashes; exploding inequality and millions of underpaid workers; a boiling housing crisis, mass displacement, and severe environmental damage; a delusional tech elite and complicity with the worst in American politics. This sweeping account of the Bay Area in the age of the tech boom covers many bases. It begins with the phenomenal concentration of IT in Greater Silicon Valley, the fabulous economic growth of the bay region and the unbelievable wealth piling up for the 1% and high incomes of Upper Classes—in contrast to the fate of the working class and people of color earning poverty wages and struggling to keep their heads above water. The middle chapters survey the urban scene, including the greatest housing bubble in the United States, a metropolis exploding in every direction, and a geography turned inside out. Lastly, it hits the environmental impact of the boom, the fantastical ideology of TechWorld, and the political implications of the tech-led transformation of the bay region.
